

Our Company

Foothills Energy Ventures, LLC is a Denver-based firm engaged in the development and operation of midstream energy assets. We focus on infrastructure development of energy resources including:

- **Natural Gas** *Storage, Gathering and Processing*
- **Liquids & Refined Products** *NGLs, Crude Oil*
- **Other Resources** *Coal, Power Generation, Alternative Fuels*

We find unique opportunities, apply a rigorous evaluation process for controlling project and investor risk, and ultimately build and operate facilities with the highest standards of safety and environmental concern.

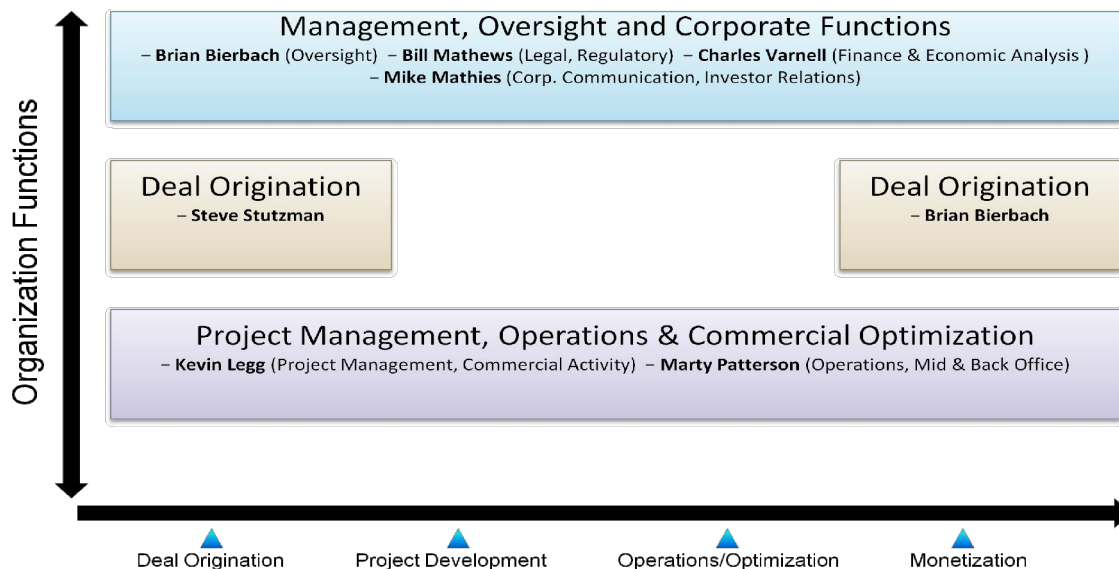

Areas of Focus

Foothills Energy Ventures was formed in April, 2006 and operates from the heart of Denver’s downtown energy district. Combined with our gulf coast office in Houston, we concentrate on diversifying our development opportunities throughout the United States. We are currently active in the Rocky Mountain, Mid-Continent and Gulf Coast regions.

Organizational Structure

Foothills Energy has assembled a team of individuals with broad experience across the entire project development spectrum.

Management Team

The management team at Foothills currently has eight partners with over 140 years of collective experience in all aspects of energy infrastructure development.
